

Dear All,

To connect to the Active Board during class please follow up the following steps.

Step 1: Install the following software “Cleaver share 2 “ below is t is the link.

<https://support.clevertouch.com/downloads/cleversoftware/clevershare-2>

The screenshot shows a web browser window displaying the Clever Support website. The URL in the address bar is <https://support.clevertouch.com/downloads/cleversoftware/clevershare-2>. The page features a navigation menu with options like Knowledge Base, Downloads & Drivers, Systems Status, Login, and Contact Support Team. A search bar is visible with the text "Product Search". The main content area is titled "Clevershare 2" and includes a "What is it?" section with a description: "Clevershare 2 is a bi-directional mirroring application that wirelessly connects your iPhone®, iPad®, Android phone and tablet, Mac®, Windows® laptop/PC and Chrome devices to your Clevertouch touch screen." It also mentions that the app is free with certain screen purchases. A "Why is it important?" section is partially visible. On the right side, there is a "Drivers & Downloads" section with links for "Windows MSI to support Clevershare 2 dongle and software products" (clevershare_1.0.5.1423.zip) and "Network requirements document, useful for IT administrators" (Clevertouch Network Requirements4.pdf).

Step 2 : open the cleaver share icon on your desktop

Step 3 : Enter the code at the **top right corner** of the screen then click on **Start Mirroring** , example is 426320. Note: once you enter the code some screen will start screen mirroring automatically.

Now your device is connected to the active board. Please make sure to keep your Pc close to the active board for better performance. Good Luck 😊

Important note: in case the screen is lock please enter **0919** the following password to **unlock the screen**
